"My niece's little baby boy, two years old, was so badly afflicted with eczema that he needed constant watching. It was all over his face and he scratched the sores constantly. Mornings his clothes would be stained with blood, and his face and hands would be covered. His family never could take him out, as his face was always full of large sores. They had medical treatment, and tried everything they heard of. She commenced using the Cuticura Remedies last spring and found that at last she had a wonderful healer. The sores left his face and he was entirely cured, and now his face is as smooth and rosy as though no sore had ever been there to mar it."
